

## Siegel & Dolt Comprehensive Dental Care

**DR. HARRIS SIEGEL AND DR. SKIP DOLT** first met during their post-doctoral training residency at University of Texas Health Science Center at San Antonio. Since training together, they have practiced in partnership for 21 years. The practice has been located in the same area of Atlanta for 56 years, originally founded by Harris's father, Dr. Alvin Siegel. The practice continues its rich tradition in making dentistry comfortable and accessible for the generations of families they serve. The warm and inviting lobby area features a relaxing fish tank, a complimentary beverage bar, and Wi-Fi services for busy professionals. Patient portraits are displayed throughout the office, describing the stories and treatment outcomes of patients seen in our practice.

While Siegel & Dolt is a family practice, both doctors have expertise in cosmetic and implant dentistry, and are able to provide a comprehensive approach to their patient's needs. The practice is committed to being on the forefront of technologic advances in dentistry using such technologies as CEREC one-visit crowns, 3D cone-beam imaging, and digital x-rays. Additionally, the practice has an in-house lab with a full-time ceramist so that all restorations are custom-matched on site to ensure the best-looking results.

The practice is conveniently located on Buford Highway between Lenox Road and North Druid Hills, with access from I-85 and GA-400.
